**Strong-arm Mobility**

**Walking Forearm Crutch**

- STRONGARM™ Mobility produces a next generation walking device based on a unique one-piece handle featuring an integral forearm brace.
- The patented STRONGARM™ design shifts loads from the wrist to the forearm, providing optimum SUPPORT, STABILITY, and CONTROL.
- New Style Forearm crutch looks like a cane.
- The cushioned cradle braces the forearm on three sides to stabilize the wrist, making the entire device feel like a solid extension of the user's arm.
- The STRONGARM™ device provides lateral support and comfort superior to traditional forearm crutches in a shape that resembles an offset cane.

**SLIM**

- Adjustable height: 28" - 37"
- For patient heights 5'3" - 6'3"
- Cradle opening: 3.125"
- Weight capacity: 300 lbs
